Title: EXP-LED-FX2 Intrinsically Safe LED Flashlight
Price: \$
Location: Phnom Penh
Description: EXP-LED-FX2 Intrinsically Safe LED Flashlight

The EXP-LED-FX2 from Larson Electronics is an Intrinsically Safe LED Flashlight that is designed to handle the demands of working within hazardous locations and environments where potentially explosive vapors, gases and other volatile compounds may be encountered. The non-slip engineered polymer case on this intrinsically safe LED flashlight is superior to standard aluminum or steel flashlights due to the fact that it will not become slippery or lose grip even when operators have greasy or oily hands. A convenient clip allows the light to be attached to a pocket or belt so that it is never far out of reach
