Title: PEB Steel Buildings Co., Ltd

Price: \$

Location: Phnom Penh

Description

PEB Steel specializes in the Design, Fabrication and Erection of pre-engineered steel buildings (PEBs), steel structures for factories, warehouses, showrooms, commercial/ trade centers, supermarkets, sport stadiums, exhibition halls, aircraft hangars, etc.

PEB Steel is being proud of its wide range product that includes "PEB"s as well as curved roofs, castellated beams, open-web-joists and special trusses.

PEB Steel is owned by the European based PEB Group which started in South East Asia in 1994. During its operation in the region, PEB Steel has supplied more than 3,200 buildings and was instrumental in setting very high standard of engineering & fabrication.

PEB Steel Buildings are designed in compliance with the latest design and building codes (IBC 2009, MBMA 2010, AISC 2005, AWS 2008); Fabricated in 5 modern factories equipped with state-of-the-art machinery and technology, including fully automated, sub-merged arc welding lines from Lincoln, USA.

PEB Steel consists of 5 fabrication facilities (including four factories in Viet Nam and one factory in India ) that boasts a total capacity to more than 120,000 metric tons of completed pre-engineered steel annually. This huge capacity enables PEB Steel to deliver pre-engineered building in a very short time and competitive prices due to "economies of scale".

PEB Steel - through its excellent track record, has impressively built a list of satisfied local and international customers which includes world class contractors: Obayashi, Taisei, Shimizu, Samsung, Kumagai, Posco and many other multi-national including Liwayway, Unilever, Doosan Heavy Industries, GE, Taekwang, Aker Yards and others.
